### WINNERS ARE ANNOUNCED

Awards in the Class "B" and Class "C", for the total aggregates scored in the junior provincial field and track meet held in Blairmore on August 10, have been announced.

Art Mills, of Calgary, stood first in the "B" Class after an official check-up. He had a total of 16 points, scoring first in the running broad jump, 17 feet, 6½ inches; first in the run, hop, step and jump, 36 feet 2½ inches; second in the 100-yard run and second in the 220-yard run. Mills' jump, 17 feet, 6½ inches, in the running broad for Class "B", broke the record held by Ronald Hoskins, of Millet, by 10½ inches.

Youthful Franklin C. Wilson, of the Cardston Amateur Athletic Association, proved to be the foremost athlete in the "C" Class. Wilson proved the Percy Williams of the meet, taking all running honors in under the 11 years of age class. He took first in the 100-yard run, covering the distance in 12 2-5 seconds; in the 220-yard final he again came in first, covering the distance in 29 1-5 seconds. Not yet satisfied Franklin came out in the 440-yard final to cover the required distance in one minute, six seconds, and thus won first place. Three firsts gave the Cardston boy the necessary points to win the Class "C" aggregate.

The day's events passed off so smoothly that it was suggested that the senior track and field meet be held here next year. Due to unavoidable complications, the winner of the Class "A" aggregate has not yet been declared. The winner of the "A" Class will be awarded the Driedal Hotel (Wetaskiwin) Cup for one year.

### PREPARING FOR FLOWER SHOW

The annual meeting of the Bellevue and District Horticultural, Industrial and Poultry Society was held at Bellevue on Tuesday evening of last week, when final arrangements were made for the fifteenth annual show, which will be held in the Bellevue arena on Monday, September 17th (Labor Day).

### SCANTY DIALOGUE AID TO FILM'S INTEREST

The new trend in pictures, as recently described by B. P. Schulberg, managing director of Paramount's West Coast production, when he said that "dialogue should only be used to enhance the dramatic value of the story," is strikingly exemplified in "Broken Lullaby," at the Orpheum theatre for the balance of the week.

"Dialogue is important when it means something, yet only where it is vital to the story," says Director Lubitsch, who made several dramatic silent pictures, but whose talking productions to date have been confined to the lighter and more sophisticated, "The Smiling Lieutenant," "Monte Carlo" and "The Love Parade."

Lionel Barrymore, Nancy Carroll, Phillips Holmes and the other characters in "Broken Lullaby," talk when it is logical that they should talk; they do not talk, however, where the story can better be developed in terms of action and use of the cameras.

The cast of "Pagan Lady," the Columbia picture adaptation of William DuBois' famous stage play, contains, from star to bit, the names of the foremost film and stage actors. Among the bit parts is Wallace MacDonald. Although a Scotchman, he has never played a Scotch part. He is frequently cast in Latin roles, as in "Pagan Lady," and is remarkably clever in them. Few people know that Wally is gifted with a marvelous voice. "Pagan Lady," with Evelyn Brent playing the title role, is the attraction Monday, Tuesday and Wednesday of next week at the Orpheum theatre.

### SCHOOL RATE SET AT TWENTY-TWO MILLS

Despite the fact that an invitation had been extended members of the school board to meet and confer with the council on matters affecting the general taxation, not one member of that body appeared at Monday night's special meeting of the town council.

In considering the board's lack of interest in the matter, the council took definite action and set the mill rate for the school at 22 instead of the suggested 30.

Members of the council, as well as ratepayers present, expressed the opinion that considerable saving can be made, both in reduction of staff and salaries. It was shown that cuts in teachers' salaries in other parts of the province are being made, ranging from ten to twenty per cent, and the ratepayers would like to know why similar action could not be taken here.

### SINCLAIR LEWIS PRAISES GOLDWYN ON FILM OF "ARROWSMITH"

Whatever other authors feel about picture versions of their books, Sinclair Lewis approves heartily of the motion picture Samuel Goldwyn made out of his "Arrowsmith," which is playing at Cole's theatre the remainder of the week, with Ronald Colman playing the crasading young doctor.

Mr. Lewis first saw the picture at its New York premiere and immediately wrote the following letter to Mr. Goldwyn:

"Dear Mr. Goldwyn: I want to thank you for 'Arrowsmith'—one of the greatest evenings I have had at the theatre. I want to thank you and Sidney Howard, Ronald Colman, and Mr. Dyer, A. B. Aron, and Richard Bennett for a film which has completely carried out everything I tried to do in 'Arrowsmith'."

Sincerely,  
Sinclair Lewis.

Cole's theatres, Bellevue and Hillcrest, have the most outstanding productions now lined up for presentation. Metro-Goldwyn-Meyer heads the list. Fox United Artists, R.K.O. distributors, Universal Films and a choice selection of the new British product. Comedies and Short subjects have been carefully selected to give the best in entertainment.

### DEATH OF MRS. J. KERR

The district received a shock on Monday, when the news spread of the death of Annie Runciman, beloved wife of John Kerr, of Passburg, at the age of fifty-eight years.

Mrs. Kerr was a native of Scotland, coming to Canada around twenty-five years ago with her husband and making their home at Passburg, where they have since resided. A loving husband, two sons and a daughter survive.

The remains were laid to rest in the Blairmore Union cemetery on Wednesday afternoon, following a service conducted at the family home at Passburg.

Mrs. Kerr was born in Glasgow on the twenty-ninth of December, 1874. She was married in 1901 and came to Canada in 1903, moving to Passburg in 1906.

Major industries continue to show a preference for newspaper advertising over that of other mediums, the American Newspaper Publishers Association have reported. The Association's Bureau of advertising announcing the results of a survey showed 433 national advertisers spent \$143,635,000 in newspaper advertising last year. Magazine space was used by 190 of these firms to the extent of \$78,317,815, and 121 used radio broadcasts entailing an expenditure of \$21,223,862.

WORLD HAPPENINGS  
BRIEFLY TOLD

The Rotterdam dock, one of the largest on the Clyde, has been temporarily closed on account of decline of shipbuilding.

Dividend on the common stock of Canadian Pacific Railway for the first six months of 1932 is not being paid at present.

The Church of Scotland plans to build 30 churches in Scotland in the next seven years, 10 of which will be in Edinburgh and five in Glasgow.

Representatives accompanying the Japanese Olympic team plan to buy the cabin of each athlete from that country who wins an Olympic title.

Newton, Mass., one of Boston's wealthiest suburbs, has nearly 20 automobiles for every family. There are 14,000 families and 23,000 automobiles.

Florenz Ziegfeld, New York theatrical producer, who died recently in California, bequeathed his whole estate to Billie Burke, his widow, and Patricia, their daughter.

An air-taxi was chartered from Imperial Airways by a London woman for a return flight to Chelmsford, Essex, where she placed a wreath on a grave in the churchyard.

Art and agriculture are the only creative professions in the world, says John Erskine, novelist. "By artists I mean all craftsmen who are creators," he said, "and by agriculturists I mean all those who produce and create wealth from the soil."

San Francisco's new \$6,000,000 opera house, the first and only municipally owned opera house in the United States, will be formally dedicated next month as a war memorial. It will open Oct. 15, with performance of Puccini's "Tosca."

Indicative, it is said, of an improved lumber outlook, is the protest filed with the British Columbia government by mill men against export of logs. Loggers, however, contend that they are in a position to satisfy all demands of the market as well as taking care of any export trade being offered.

## Britain's Unemployed

Seven and a Half Million People Depending on Government Aid.

A wandering army of unemployed youths, vaguely reminiscent of the United States bonus army, is making its appearance in Great Britain as a result of increases in the number of jobless announced as 2,811,792.

Unemployment has made approximately one-fourth of Britain's 45,000,000 population dependent to some extent on government aid, for fully 7,500,000 men, women and children are existing wholly or partly on government or local relief in addition to the official total of jobless.

As a result of the latest official figures, an increase of 64,438 in the month of July, and of 66,423 in the last year, the nation's relief machinery is scarcely able to cope with the situation.

## Limit to Cattle Exports

Less Than 25,000 Head May Be Shipped to England Next Year

Less than 25,000 head of cattle would be shipped to the United Kingdom next year from Canada, even if the restriction now imposed against Canadian cattle landing in Britain were lifted. This estimate was made in an interview recently by Hon. Robert Weir, Canadian Minister of Agriculture.

Reports which have gone out that the lifting of the restrictions would result in Canada shipping from 100,000 to 400,000 head annually to Britain are regretted by Mr. Weir. These reports would tend to fill the British farmer with fear that his home market would be flooded by Canadian cattle, while no such danger really exists.

A material that does not stop the ultra-violet rays from the sun, resembling glass, and not as fragile, has been made from natural gas.

Barber: "Your hair is getting thin on top sir. Have you tried our new hair tonic?"

Customer: "No, it isn't that!"

Safe-breaker at home: "I should hate to open my own safe any other way."—Musketeer, Vienna.

## How To Order Patterns

## Make Interesting Discovery

Canadian Scientists Gain Knowledge Of Universe Of Great Importance

New knowledge of the universe, stated to be of tremendous potential importance in the scientific world, has been gained by Prof. J. S. Foster and Dr. A. Vibert Douglas, McGill scientists who returned to the university following a month's research work conducted at the Dominion Astrophysical Observatory at Victoria.

Professor Foster, declined to claim full success for their achievements until he and Dr. Douglas have had time to re-study their findings. He said, however, that the results of their work would quite likely create an upsurge of opinion among European scientists.

The two McGill scientists set themselves to examine the electrical fields of stars.

They conducted observations both at Victoria and at Pasadena, Cal. Only one day was spent at the latter place.

Victorian Order of Nurses

Miss Smellie To Visit Europe To Study Maternal Welfare Work

In recognition of the comprehensive programme of maternal welfare carried on by the Victorian Order of Nurses for Canada, the Rockefeller Foundation has extended to Miss Elizabeth Smellie, its chief superintendent, an invitation to visit a number of European countries within the next few months for the purpose of studying conditions of maternal welfare there.

Miss Smellie expects to sail early in September, visiting England, Denmark, Austria, Germany and Italy, and returning to Canada about the middle of December.

## WORLD'S RECORD WHEAT MOVEMENT MARKS WELLAND CANAL OPENING

Carrying 575,000 bushels of western wheat, representing the product of over 41,800 acres of prairie land and the largest single cargo ever carried in any single ship on any sea, the giant S.S. Lemoyne, of Canada Steamship Lines, 633 feet long and the biggest vessel on freshwater, opened the Welland Canal officially on August 6 in the presence of His Excellency, the Governor-General, Rt. Hon. Stanley Baldwin, and the delegates to the Imperial Conference, Premier R. B. Bennett, members of the Cabinet and thousands of spectators.

Early in July this year the freighter "Ashcroft" went through the canal with 360,000 bushels of wheat on her way to Kingston only to see her record broken within a few days by the freighter "Glencleslie" with 369,000 bushels. Both these vessels had formerly been confined to the Upper Lakes.

Less than a week after the "Glencleslie" had set her new record for grain she returned to Lake Erie and brought down to Hamilton 12,910 tons of coal, another Welland Canal record which will likely stand for some time.

On her latter trip the "Glencleslie" also shattered all records for cargo carried into the port of Hamilton.

Today the "Glencleslie" is the largest boat ever to have entered Lake Ontario, but compared to the "Lemoyne" she is a small freighter. Her length of 596 feet compared with the "Lemoyne's" 633 feet and her capacity is approximately 380,000 bushels compared with the "Lemoyne's" 571,885 bushels.

Considered of special importance to the Empire since the Welland Canal in future will be the route used by most of Canada's grain ships, it was decided some time ago that the official opening should be on the programme of the Imperial Conference and efforts were immediately made to have the largest Canadian lake boat go through "our this ceremony."

Elaborate preparations were made for welcoming the "Lemoyne" to Port Colborne on her first voyage and that in addition to delegates, government officials and representatives from other provinces large crowds of people viewed the ceremony.

Oldest In the World

Ancient Skull In Found While Excavating In London

The oldest known human skull belongs to a London woman, Elliot Smith, professor of anatomy at the University of London, stated at a meeting of the international congress of pre-historic and proto-historic sciences.

"The skull is known as the Lloyd's skull," he said, "and was found in blue clay 40 feet below the surface during excavations for the new home of Lloyd's corporation in Leadenhall Street. It belonged to a woman about 50 years old, who probably was left-handed."

After considering all the evidence and carefully studying all other known skulls of the kind, Professor Smith said, he decided the London skull represented the earliest genuine remains of homo sapiens, giving it pride of place over the Java man, the Peking man, and all other pre-historic finds.

The other attendants at the congress expressed great surprise over the announcement and left the hall immediately afterward to examine the skull and discuss the problem.

## Naval Armaments

Difficult To Distinguish Between Defensive and Offensive Weapons

Why all this bother about "offensive" and "defensive" naval weapons at Geneva? Is the submarine offensive? Are battleships, mine-layers and bombing planes defensive?

There is one simple rule by which every case can be decided. The French fellow's weapon is extremely offensive, your own is purely defensive.

Ask any schoolboy or baseball fan. The humble pop bottle is the most innocuous of objects, quite inoffensive. Only prejudiced persons like the umpire could possibly construe it as offensive. Again take the pea-shooter. Whoever heard of a schoolboy that attacked? As any boy knows, the use of the pea-shooter, like the water-pistol, are solely for the warding off of attacks by others, especially those around with.

And so it is with submarines and the like. The gentle U-boat regarded the Q-boat as highly offensive, whereas we all know it to have been purely protective. During the war, some of us harbored hard thoughts about submarines. Quite unjustly, it now seems, according to the French and Japanese thesis. The under-sea boat has become the Poor Nation's Armor. It is the cheapest naval weapon for frightening off offenses, according to its backers.

Weapons are defensive or quite evident according to the uses to which they are actually put. When you have decided who is the offender, and who is on the defensive, then, perhaps, you may decide whose weapons are offensive. Meanwhile, most nations seem to proceed on the principle that if a club is defensive, three clubs and a machine gun are twice as defensive.

—Montreal Star.

Testing Out New Device

Invention May Prevent Flying Students From Frequent Controls

A new device to overcome the danger of flying students "freezing" the controls of aircraft in a panic has been developed by engineers of the department of national defence and is now undergoing thorough tests.

An arrangement whereby the instructor can disengage the student's controls in flight was found unsatisfactory, because once the student had overcome his momentary panic it was necessary for the aeroplane to land before his controls could be connected up.

The new principle under test provides a jointed control stick that becomes automatically disconnected when too much pressure is applied to it, and yet resumes its usefulness when the student's grip relaxes. The instructor in the other cockpit is provided with a normal control stick and has control of the aircraft at all times. By pulling on his stick he can force the student's control out of joint.

Iceless Refrigerators

Colorado Farmers Have Inexpensive Means Of Keeping Food

Home-made iceless refrigerators are becoming unusually popular on many Colorado farms as an inexpensive means of conserving butter, milk, vegetables and fresh fruits, according to Mary Sutherland, extension economist in home management for the Colorado Agricultural College.

The iceless refrigerators are made by stretching either rust-proof screening or burlap over an empty orange crate. A covering of eanlon flannel or some similar material is placed over the crate. The lower ends of the flannel covering are allowed to rest in a pan of water.

Capillary attraction keeps the cloth wet, and evaporation causes the refrigerator to remain at a low temperature.

"What's that you're putting in your shirt pocket?" asked Murphy.

"Dynamite," whispered Donovan.

"The waiting for Casey. Everytime he meets me he slaps me on the chest and breaks my pipe. Next time he does it he'll blow his hand off."

She: "They say that a sailor has a sweetheart in every port."

He: "Yes, but this isn't port."

—Buen Humor, Madrid.

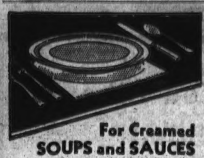

Booklovers in the Irish Free State are demanding the removal of the new book tax.

The King of England has conferred the Royal Victorian Chain upon the Duke of Portland.

Chief: "De prisoner has had him appendix removed, Sare."

CANNIBAL KING: "Curses! I lub an appendix."—From The Humorist, London, England.

CHAPTER XXVII.—Continued

"Oh, yes, she did. It was quite clear in the afternoon when she started looking like being a lovely night."

"But—but—"

Nick staggered and came to a halt. There was a look of bewilderment in his eyes.

"But who's she gone with?" he demanded at last. "I thought she said she intended stopping the night with Judith and Burke at their bungalow."

"So she did," replied Blaise. "Why? Have you any objection?"—smiling.

"No. Only," Nick frowned—"I don't quite understand it. Judith isn't on the Moor."

"Not on the Moor?" broke simultaneously from Lady Anne and Blaise.

"How do you know, Nick?" added the latter gravely.

"Why, because," Nick's face wore an expression of puzzled concern—"because I saw Judith in Newben Abbott late this evening."

Blaise leaned forward, a sudden look of concentration on his face.

"You saw Judith?" he repeated. "What time?"

"It must have been nearly eight o'clock. I was hurrying along in Jim Crosswell's car to catch the seven-fifty-five up train, and I saw Judith with one of the Howells—you know, those people from London—turning into the gateway of a house. I expect it was the place the Howells are stopping at. They didn't see me."

"You're quite certain? You've made no mistake?" said Blaise sharply.

"Of course I've made no mistake. Think I don't know Judy when I see her? But what's the meaning of it, Blaise?"

Tormarin rose to his feet, tossing the stump of his cigarette into the fire.

"I'm not sure," he said slowly. "But I'm going to find out. Madonna"—turning to his mother—"did Jean tell you exactly what Judith said when the rang her up on the phone about this moonlight plan?"

"It wasn't Judith who rang up," replied Lady Anne, a faint misgiving showing itself in her face. "It was Geoffrey who gave the message."

Tormarin looked at her with a sudden awakened expression in his eyes. There was dread in them, too—keen dread. The expression of a man who, all at once, sees the thing he values more than anything in the whole world being torn from him—dragged forcibly away from the shelter he could give into some unspeakable darkness of disaster.

"That settles it," he pressed his finger against the bell-push and held it there, and when Blaise came hurrying in response to the imperative summons, he said curtly: "Order me a fresh horse round at once—at once, mind. Tell Harding to saddle Orion, and to look sharp about it."

"Blaise—Lady Anne's obvious uneasiness had depended to a sharp anxiety—"Blaise, what are you going to do? What—what are you afraid of?"

He looked her straight in the eyes. "I'm afraid of just what you are afraid of, madonna—of the devil let loose in Geoffrey Burke."

"And you're going to look for her—for Jean?"

"I'm going to find her," he corrected quietly.

Gravity had set its seal on all three faces. Each was conscious of the same fear—the fear they could not put into words.

"But why do you take Orion?" asked Nick. "The little thoroughbred mare—Redwing—would do the journey quicker and be lighter of foot over any marshy ground on the Moor."

"Orion can go when he chooses," returned Tormarin. "And he'll choose tonight. Redwing is a little bit of a thing, though she's game as a pebble. But she couldn't carry—two?"

The significance of Tormarin's choice of his big roan horse, three-parts thoroughbred and standing sixteen hands, came home to Nick. He nodded without comment.

"Silently he and Lady Anne accompanied Blaise into the hall. From the gravel drive outside came the impatient stamping of Orion's iron-shod hoofs. Just at the last Lady Anne clung to her son's arm.

"You'll bring her back, Blaise?" she urged, a quiver in her voice.

"I'll bring her back, madonna," he answered quietly. "Don't worry."

A minute later he and the great roan horse were lost to sight in the mink of the night. Only the beat of galloping hooves was rung back to the two who were left to watch and wait, baffled and vague—through the shrouding mist like the sound of a distant drum.

CHAPTER XXIX.

The Golden Hour

Orion had fully justified Blaise's opinion of his capabilities. As though the great horse had gathered that there was trouble ahead to which he must not add, he had needed neither whip nor spur as he carried his master with long, sweeping strides over the miles that lay between Staple and the Moor. He was as fresh as paint, and the rush through the cool night, under a rider with hands as light as a woman's who sat him with a flexible ease, akin to that of a Cosack, had not disturbed him in the very least.

Now they were climbing the last long slope of the white road that appeared to the westward, the reins lying loosely on Orion's neck.

The mist had lifted a little in places, and a watery-looking moon appeared through the clouds now and again, throwing a vague, uncertain light over the blurred and misty moorland.

Tormarin had no very definite plan of campaign in his mind. He felt convinced that he should find Jean at the bungalow. If, contrary to his expectation, she were not there, nor anyone else to whom he could apply for information as to her whereabouts, he would have to consider what his next move must be.

Meanwhile, his thoughts were preoccupied with the main fact that she had failed to return home. If she had accepted Burke's invitation to the bungalow, believing that Judith and the Howells would be of the party, how was it that she had not at once returned when she discovered that for some reason they were not there?

Some weeks ago—during the period when she was defiantly investigating the possibilities of an "unexploded bomb"—it was quite possible that the queer recklessness which sometimes tempts a woman to experiment in order to see just how far she may go—the mysterious delight that the feminine temperament appears to derive from dancing on the edge of a precipice—might have induced her to remain and have tea with Burke, chaperon or no chaperon. And then it was quite on the cards that Burke's lawless disregard of anything in the world except the fulfilment of his own desires might have engineered the rest, and he might have detained her at the bungalow against her will.

But Blaise could not believe that "his-a-lady" with Burke would hold any attraction for Jean now, not since that day, just before the visit to London, when he and she had been discussing the affairs of Nick and Claire and had found, quite suddenly, that their own hearts were open to each other and that with the spoken word, "Beloved," the misunderstandings of the past had faded away, to be replaced by a wordless trust and belief.

But if it "had" attracted her, if—knowing precisely how much the moon she loved would condemn—she had still deliberately chosen to spend an afternoon with Burke, why, then, Blaise realized with a swift pang that she was no longer his Jean at all but

some other, lesser woman. Never again the "little comrade" whose crystalline honesty of soul and sensitive response to all that was sweet and wholesome and true had come into his scarred life to jewel its arid places with a new blossoming of the rose of love.

He tried to thrust the thought away from him. It was just the kind of thing that Neata would have done, playing off one man against the other with the innate instinct of the born coquette. But not Jean—not Jean of the candid eyes.

Presently, through the thinning mist, Tormarin discerned the sharp turn of the track which branched off from the road towards the bungalow, and quickening Orion's pace, he was soon riding up the steep ascent, the moonlight throwing strange, confusing lights and shadows on the mist-wet surface of the ground.

Suddenly, without the slightest warning, the road narrowed and ended around, shying violently away from the off-side bank. A lean good horseman might have been unseated, but as the big horse swerved Tormarin's knees gripped against the saddle like a vice, and with a steady word he faced him up the track again, "going back keenly at the overhanging side of the roadway to discover what had frightened him.

A moment later he had jerked Orion to a sudden standstill, leapt to the ground and, with the reins over his arm, crossed the road swiftly to where, clad in some light stuff that glimmered strangely in the moonlight, lay a slender figure, propped against the bank.

"Blaise!" Jean's voice came weakly to his ears, but with a glad note in it of immense relief that bore witness to some previous strain.

In an instant Tormarin was kneeling beside her, one arm behind her shoulders. He helped her to her feet and she leaned against him, shivering. Feeling in his pockets, he produced a brandy flask and held it to her lips.

"Drink some of that!" he said. "Don't try to tell me anything yet."

The raw spirit sent the chilled blood racing through her veins, putting new life into her. A faint tinge of colour crept into her face.

"Oh, Blaise! I'm so glad you've come—so glad!" she said shakily.

"So am I," he returned grimly. "See, as a woman's little more brandy. Then you shall tell me all about it."

At last, bit by bit, she managed to give him a somewhat disjointed account of what had occurred.

"I think I must have been stung by a little when I fell," she said. "I can't remember anything after stepping right off into space. It seemed, till oh ages afterwards—I found myself lying here. And when I tried to stand, I found I'd hurt my ankle and that I couldn't put my foot to the ground."

**St. Boniface Priest Builds Fine Organ**

Instrument Is Marvel Of Tonal Richness and Sweetness

A workshop which might well rival those of his priestly craftsmen of the middle ages is maintained by Brother Sylvestre, of the Oblate order, in St. Boniface. In his workshop, Brother Sylvestre, during his spare time in the past 12 months, has built a beautiful two-manual, pneumatic-action organ, perfect in degree of quickness and sensitiveness.

The instrument is designed along the same lines as Casavant Freres instruments and is a marvel of tonal richness and sweetness. It is a product of great natural genius, rare skill and long hours of labor.

Brother Sylvestre is a Frenchman by birth. He came to Canada in 1891 from his native Savoy, where his parents had apprenticed him to a blacksmith. On his arrival in Canada he was for 10 years in the service of the Oblate Order as a builder of mission schools and buildings in northern Canada.

It was in 1910 that he became interested in musical mechanics and for some years he has enjoyed a reputation as a maker of high-grade piano and chromatic accordions, work which gave him valuable training for the more difficult task which has now reached a successful consummation.

What Brother Sylvestre will do with his organ now that it is completed he has not decided. He may present it to some mission in the far north, but he sees objection to that since only highly skilled musicians could play it and such are not to be found in that area of French-Canadian missions.

It was in 1910 that he became interested in musical mechanics and for some years he has enjoyed a reputation as a maker of high-grade piano and chromatic accordions, work which gave him valuable training for the more difficult task which has now reached a successful consummation.

**Little Helps For This Week**

First the blade, then the ear, after that the full corn in the ear."—Mark iv. 28.

Then bless thy secret growth, nor catch at noise, but thrive unseen and dumb! Keep clean, bear fruit, earn life, and watch.

Till the white-winged reapers come. —Henry Vaughan.

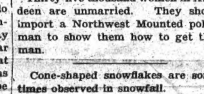

The Author and Giver of all good things expects us to grow and improve. He offers to increase in us true religion, to nourish us in all goodness. The gospel is a call to progress and improvement; it bids us never tire in our works of charity, but as fast as one kind purpose is accomplished set about another. Let charity, gentleness, and love be as the breath you draw.—John Keble.

What is thought the earliest mention of the egg as food is found in the book of Job. In Job 6.6 it is said: "Is there any taste in the white of an egg?"

A railway season ticket, covering 175 miles of travel, was issued to do at Plymouth, so it could accompany its mistress, a travelling saleswoman, on her trips.

Thirty-five thousand women in Aberdeen are unmarried. They should import a Northwest Mounted policeman to show them how to get their man.

Cone-shaped snowflakes are sometimes observed in snowfall.

**You can cook 3 vegetables AT ONCE**

**in the same saucepan by using CANAPAR**

Do each vegetable up in its own bag of Canapar Cookery Parchment.

There won't be any odor, not even from cauliflower. All the food value and flavor will be retained. And you use only one burner turned low for cooking. The flavors will not mix!

The same with boiled or steamed fish. You'll be delighted with the results. No fishy odor in the kitchen. No saucepan or kettle to clean up. When roasting meat, line your pan with Canapar. Fats and juices won't burn. No more scraping or scouring of the pan afterwards.

You can use Canapar repeatedly by simply rinsing it off and hanging up to dry. It doesn't absorb odors. Makes a perfect dish cloth. Silky, strong, and doesn't spread lint over a new and unique booklet, the famous PARASANI Heavy Wax Paper in the Green Box.

**Special Offer**

Most grocers, druggists and department stores have Canapar on sale, but if yours hasn't, send this coupon direct to the makers and we'll give you a new and unique booklet entitled "Leftovers," containing one hundred recipes as a bonus for your trouble.

Applied Paper Products, Ltd., Hamilton, Ontario. Enclosed find 25c for which please send me one full size package of Canapar Cookery Parchment and my 100 recipes for "Leftovers."

W. J. BARTLETT, PUBLISHER

Blairmore, Alta., Thurs., Aug. 15, 1932

## PUBLISHER'S ANNOUNCEMENT

Many are the methods adopted by publishers in the effort to induce subscribers to pay up. Here is an interesting announcement which appeared recently in The News, of Indian Head, Saskatchewan:

"For some time, the business, of publishing The News has created exorbitant but little revenue. Some weeks, receipts are not sufficient to cover outlay, which means the paper is being published at a loss. Under similar circumstances, the plan is sometimes adopted to close up the plant and go home and starve to death. The News is not prepared to do this, for two reasons. The first is that The News has a number of paid-up subscribers who have paid it a commitment in expecting it could weather the storm for another twelve months and will want their money back if it doesn't. This would be highly embarrassing for the management. The second is that The News is fifty years old and is constrained to do, if at all, with its boots on, as becomes an old timer. There may have been tougher times in the old days of fifty years ago—although The News would be glad to swap sight unseen. The point is that the present is stormy enough for The News, and anyone who is able to conjure up a more difficult period has an imagination that would produce a great deal of money if put to proper use. Dear reader, you do not want to see this headline staring you in the face: 'Local Paper Folds Up.'"

"Sorrowing Relatives Surround Editor's Bed—Pardon, Bier." Subscribers who owe The News money can help. It's easy enough. Just look up the address label on your paper (there it is up in the corner) and see if it reads "1932." You are in arrears if it reads any date prior to June, 1932, and The News would be glad to hear from you. We have almost stopped sending dunnies. You've no idea how much postage costs these days. Certainly we'll take a little on account."

## SOAK THE WEALTHY

Men who do not stop to think have now adopted a three word slogan which, they use whenever taxes are mentioned. This slogan is "Soak the rich."

Undoubtedly a wealthy man should stand a large share of the cost of government. As a matter of fact he does, without being "soaked" additionally.

What Mr. Average Man should try to visualize is the attitude of the wealthy man who has just paid 50,000 or 100,000 dollars to the government. "How about putting up a new addition to your factory?" says Mr. Average Man, who is a carpenter.

"Blah," remarks the wealthy man. "The government has the money I intended to use for that."

"How about giving me a job?" says Mr. Average Man, whose occupation is a machinist. "You have several machines idle and I have experience."

"Blah," says the wealthy man once more. "I had intended to take on additional men, but the government has the money I was to apply on the pay roll."

Yes, we can soak the rich. We can soak them so hard that they will soon be as poor as we are. When this happens, who will we soak, how will we get the money we need, and where will we find a job?

Mr. Average Man should consider these questions very carefully. —Richard S. Bond (with apologies to local rich).

## HOW SLANG WORDS GET INTO THE DICTIONARY

83 characters of the modern slang age have finally found their way into respectable society. The kisser, the dunker and the nudist may hold their heads high.

No longer are the titles mere slang, Dr. Frank H. Vizetelly, lexicographer, has decided, so he lists them all in his newest dictionary just being published in New York.

The gray haired arbiter of what's good English plays with words as a dancer does with gold.

Daily he is besieged by letter, by telephone and by personal calls to take this word out and put that word in.

"Knowing when to admit a word is largely a matter of intuition, instinct," he says. "Like mushrooms, he down of a new day brings a new crop of words. Some get trodden down instantly. Others are picked up and preserved."

"A Broadway actor shoots an entirely new expression across the footlights. A newspaper man likes it and uses it in a story. The theatre goes stamp repeating it. It gets into a few novels. Finally common usage forces it into the dictionary."

When the Long Island "third degree" case was being spread across the front pages of newspapers some weeks ago, Dr. Vizetelly rushed to his own dictionary to see if the expression was listed.

"Third degree," it read, "in police practice, a process of examining a prisoner, sometimes accompanied by unduly severe treatment."

"If it hadn't been in the dictionary it would have gone in," Dr. Vizetelly chuckled. "Just one crime case often forces us to take a word out of the probationary class."

Some of his latest additions to the dictionary are:

Ballyhoo, permanent wave, flubdub; (which means twaddle or flapdoodle), night club, nutgrog, robot and jodhpurs.

## TIME TO USE THE NEWSPAPER

Some firms which need business badly are taking bizarre means of attracting it—buying advertising bonuses for business anemia. There are trying times for business—but time to use tried methods for getting business. This is the time to use newspapers. The newspaper has not been discarded by depression. It still holds its circulation and its audience. The audience wants it, and pays for it every day. The newspaper permits you to pick your better markets, and a good advertising waste in poor ones; to reach customers to whom you can and do sell goods now. The newspaper permits you to do serious selling—to use fact and reason and argument to pry dubious dollars out of wary wallets. The newspaper permits frequency of appeal, at low costs. For better sales and better business, mobilize your advertising dollars where they will do you most good this year—in newspapers.—St. Thomas Times Journal.

## TAKE CARE

Take no chances when swimming. Take no chances by being careless when on or in the water. Don't go swimming alone, at least without someone watching from the shore.

The other day one of the greatest swimmers on this continent, Johnny Weissmuller, said this:

"I am a champion swimmer, yet I would not more swim half a mile from shore alone without a boat in attendance than I would put a loaded gun to my head and pull the trigger. It is as dangerous as that. Don't show off and keep cramps in the back of your mind when you are tempted to swim out of sight or aid of others."

Are ordinary folk as careful as Weissmuller? His advice—the advice of a champion—should be taken to heart.

Red Deer Elks made a net profit of around \$400 from a midway conducted at the annual fair.

BLAIRMORE UNITED CHURCH  
"Serve the Church that the Church May Serve You."

Rev. A. S. Parlington, B.A., Rector.

Services Sunday next, August 21st:  
Morning Service at 11 o'clock.

## WHAT WE CAN AFFORD

There are many good things which we can all afford, regardless of our circumstances:

We can all afford to give freely also best that we have, because in giving it we have it doubly.

We can well afford to doubt a seeming injustice, because God's law is sure.

We can well afford to be tolerant of the opinions of others, because if we are growing—our own views are certain to change.

We can well afford to believe that which is good, because only the good is true.

We can well afford a seeming sacrifice for the right, because any other side is a losing side.

We can well afford any effort which adds to the richness of our inner life, because any good from without can reach us only through an affinity with the good we have cultivated within.

We can well afford to be cheerful in apparent defeat, for we have not lost irreparably, while we still have the spirit to cheer.

Principles alone are enduring. Personality, appearance, mannerisms, all these change continually.

Serving God is doing good to man.

—Benjamin Franklin.

## HE PAYS

He is a pompous, choleric old chap at times, and one can find a lot of things to point an accusing finger at in his backyard, but he has his points. He does not whine, and he never "welches," and without preaching it very much, he has practised the philosophy of the copybook maxim that honesty is the best policy. The old boy pays. The going has been pretty rough lately, still when he wanted to borrow a couple of hundred million dollars last summer our bankers were glad to accommodate him. They knew their man. Things are a bit easier with him now, and what does he do? Characteristically, he pays. He has paid \$150,000,000 of that loan. His name is John Bull, home address, London, England; familiar figure in all the capitals and most of the crossroads of the world involved in pretty much all the crisis of history and, somehow or other, contriving to muddle through.—St. Louis Post-Dispatch.

## NUDITY LUNCHEONS NOW

An invitation to a nudist luncheon comes to us on the stationery of Holborn House, publishers of Jan Gays' "On Going Naked." The luncheon is to be given at the house of a nudist colony about two hours from New York and the guests will be expected to disrobe before entering the camp. No, we're not going! We haven't the moral (or is it immoral?) courage. Neither have the figures. But there is one point on which we should like to be enlightened. What dressing, if any, is served with the salad at a nudist luncheon?—New York Times.

Spirits, bad ones, are attributed to the cause of Axelson's death.

## CORRESPONDENCE

To the Citizens of Blairmore from the Youth of Blairmore

Dear Sirs—We are here writing you a letter from the youth of Blairmore. It is known that for as long as we have lived in Blairmore we never had the opportunities as other cities and towns of other towns have had, and so therefore, feel that it is time that we said something. The purpose of this letter is to let the Citizens of Blairmore know our feelings. We never as yet had any chance in our sports, such as baseball and other sports whatsoever.

We will not talk about the above mentioned sports, but about the sport of swimming. You know that all the youth of Blairmore are great swimmers, and to be so had to go miles away to a loamy swimming hole for a swim. It is known that we were to have a swimming pool a couple of years ago, but on account of a few who can't bear to look at bare legs did not agree, and so the Town agreed. Now Blairmore is a fairly large town with a good population and hasn't even got a swimming pool. What a shame when girls and boys have to go to Waterton or Lee Lake for a swim. We wonder what the citizens of Blairmore think of a nice camp site and no place to go swimming. Now we the Youth of Blairmore want a swimming pool, and a good one. We don't want a mud hole like we had, so that we had to leave because of the mud. We are getting the best of it. We wish you would look into this and so that by next year we will have one of the best pools between Grant, and Calgary.

The Youth of Blairmore.

Lethbridge, Alta., Aug. 15, To the Editor, Blairmore Enterprise.

Sir, I shall esteem it a favor if you will give me space in the "Enterprise" to contradict a rumor, which I have been informed is being circulated in the Crow's Nest Pass, to the effect that I intend to discontinue my visits to this district.

I have the greatest admiration for the "Musical Talent" to be found in the Pass, and although it takes a great deal of my time, and is quite expensive to make my weekly visits, the work is so interesting, it is quite worth the trouble. In addition, the annual "Musical Festival" is always a joy. Thanking you, I remain, Yours very truly,

H. MELLOR-LANGDALE.

## CROWS' NEST OIL STOCK

SALE IS NOT LEGAL

SPOKANE, Aug. 11.—The Crow's Nest Glacier Oil, Ltd., was not called on, the Standard Stock exchange Tuesday. It has occupied the curb list.

The silence follows the receipt by brokers here of a letter from Charles R. Maybury, director of licenses, Olympia, in which the following statement is made:

"Brokers are requested to desist from selling the security issued by the Crow's Nest Glacier Oil, Ltd., as they are not qualified for sale in this state. This department will take prompt action on securing evidence of sales after receipt of this notice."

The company recently increased its capitalization.

It is reported that the head office of the company, at Vancouver, B.C., was informed yesterday of the order from Olympia, with a view of having the security qualified.

## EAST KOOTENAY POWER

CO. GRANTED EXTENSION

The East Kootenay Power Company, which holds two certificates approving its undertaking in respect of the diversion of 1000 cubic feet per second of water from Elk river at Phillips Canyon for generation of electrical energy and the storage of 35,000 acre feet of water in the channel of the said river has been granted an extension of time for the commencement of work fixed in the certificates of approval dated September 28, 1928, and May 19, 1930, to June 30, 1935, according to a notice published in the Cranbrook Courier.

## VERMILION EDITOR IN CLOVER

The Observer notes in the last issue of McLean's Magazine, that our old friend, S. R. P. Cooper, editor of the Vermilion Standard, has been agitating his gray matter to advantage in figuring out some of the puzzles published by McLean's.

He was among five who had the correct solution to one McLeanogram and the first prize of \$300 was divided among the five, giving Mr. Cooper sixty bones, all his own. Our only regret is that there were four others who horned in on the Cooper win, but even \$60 looks like a year's salary to the average newspaper editor these times.—Vermilion Observer.

## Would You Like to be Blind?

IMAGINE yourself to be blind, and being asked to buy a motor car, or silverware, or clothing, or a pair of shoes, or a clock, or a refrigerator, or a suite of furniture. Imagine yourself to be set down in a main street with stores on both sides of it, and being bidden to purchase the thing or things on your shopping list.

Being blind, you would not know what store or stores to enter; and even if you did find yourself in the right class of store, you wouldn't be able to select intelligently what you were bidden to buy. You wouldn't know anything about value.

It would be cruel to send a blind person to do selective buying.

You would be like a blind person, when you start out to buy something, if there were no advertisements in the newspapers and magazines which you read.

Advertisements are like radiovision: They enable you to see in your home what is in stores, what stores have, what you plan to buy; also, they give descriptions, tell you prices, and answer many of your questions.

Pre-informed—in your home—about goods of desire, you can go shopping confidently—to known places of supply, and you know how to examine the wanted article and what to pay for it.

Advertisements save your time, and safeguard you against the danger of mischoice.

What is advertised regularly is trustworthy, and is good value.

BE guided by advertisements when you plan to spend money for things to wear, to eat, to give your home easements and comforts, to save your time, to increase the output of your own labor, or of your soil or flocks or herds or orchards; or to protect your life, your health, your property or money.

What advertisers do and spend in this and in other newspapers to get your attention and favor should have your warm approval, for what may be expense to them represents economy for you.

This advertisement is sponsored by the Canadian Weekly Newspapers Association.

## "MARCH ON YOUR STOMACH"

THESE words of wisdom are as sound today as when they led Napoleon's armies on to victory.

He realized, that to win, men must have the strength and vigor of abounding health, furnished only by wholesome, nourishing food.

## MOTHER'S BREAD

is the wholesome, nutritious food of foods, easily transformed into strength and energy.

## District News

From Our Own Correspondents

### CORBIN HAPPENINGS

Mrs. W. Crossfield and family, accompanied by P. McGovern, returned to town on Sunday, after having spent an extended vacation on Vancouver Island.

Mr. and Mrs. M. Gibson and family are spending a short vacation at the Arrow Lakes.

Mr. and Mrs. F. Winters and family are vacationing at the coast.

Mr. and Mrs. W. Goss and daughter Marjorie spent the week end at Champion, returning home with their son Bob, who spent his vacation in the Alberta town.

Ernest Montalbet is spending his vacation at Bluffton. He is accompanied by his uncle, Joseph Montalbet, of Blairmore.

Mr. and Mrs. C. Venables have as their guest the former's sister, Mrs. Butcher, of Spokane.

Mr. and Mrs. J. Barnes and family, accompanied by Miss Helen Lawrence, of Clampon, Alberta, returned over the week end from a camping trip to the Flathead valley.

Mr. and Mrs. L. V. M. Peel and family returned this week end from a vacation spent at points in Alberta.

The Corbin football team played Coleman at Hillcrest on Saturday evening in the semi-final of the Muts Cup series and forced the Coleman boys to take the short end of a 5-1 score. There was no doubt at any period of the game as to the result.

Ball opened the scoring for Corbin, to be followed shortly afterwards by McVey. Score at half time was Corbin 2, Coleman 0. The second half opened with McVey scoring twice before Coleman got their only goal, while Fleming scored Corbin's fifth goal. Teams: Corbin—Bewick, J. Jackson, R. Lilly, L. Elms, J. Fleming, F. Jackson, J. Robinson, J. Ball, A. McVey, C. Hillier, P. Dawson. H. Jenson acted as referee.

Corbin's ball team lost to Cranbrook at the local park on Sunday by 16 to 6. Teams: Cranbrook—Hall, Logan, Bob, Findlay, C. Huxar, L. Clapp, 2b, Hogarth, r.f., Clapp, c.f., Sang, lb, Thyrven, p., Bell, p. Corbin—Press, r.f., Selenski, p., Thompson, c., Joyce, 3b, Falconer, 2b, Sleib, lb, Russell, p., Poffinrath, c., Crocker, l.f.

R. Elms and J. Shewchuk were Calgary visitors recently.

In a new novel, there occurs the following passage: "Striding to the window, he opened it and threw out his chest." Even for the loose-limbed young hero of a modern thriller, this is quite a remarkable feat.

### DR. J. L. CHAPPEL

CHIROPRACTOR—

### LODGE DIRECTORY

Blairmore Lodge No. 68,  
I. O. O. F.

Meets First and Third Tuesdays at 8 p.m., in the Oddfellows Hall. Officers for the ensuing term: A. Tiberg, N.G.; A. Decoux, V.G.; J. Patterson, Recording Secretary.

### Livingstone Lodge No. 22, KNIGHTS OF PYTHIAS

Meets in the Castle Hall on the Second and Fourth Fridays of the month at 8 p.m. Visitors are always welcome. Officers: G.C. Thos. Gale, K. of R. & S. R. Smiler.

### BLAIRMORE LODGE NO. 18, B. P. O. ELKS

Meets Second and Fourth Tuesdays at 8 p.m. in the Lodge Hall. Visitors made welcome. H. O. Westrup, Exalted Ruler; J. R. McLeod, Secretary.

### HILLCREST HAPPENINGS

A. Casagrande has been confined to his home through illness for a few days.

Dr. G. B. Rose returned Saturday from his trip to points in eastern Canada.

Mr. P. Haggerty is a visitor in Trail, B.C.

Lawrence Fisher has returned home, after being in hospital for several weeks.

The funeral of Steve Sepik took place on Sunday afternoon. Following service at the Catholic church, the remains were laid to rest in Hillcrest cemetery.

Miss Jennie Makin is a visitor with friends in Lethbridge.

Mr. and Mrs. W. Stevenson and family have returned from the North Fork, where they have been camping for some time.

Dr. and Mrs. G. B. Rose and family are visitors at Radium-Hot Springs.

Mr. and Mrs. J. Mackie are Waterford Lakes visitors.

J. Calderwood and daughter Dorothy returned from their holiday trip on Saturday.

Mr. and Mrs. S. Marshall and son James returned Saturday from a pleasant holiday spent in Calgary.

Mrs. R. Makin has returned from Waterton Lakes, where she had been staying with friends.

Mr. and Mrs. G. Cruickshank and family motored to Radium Hot Springs over the week end.

The Corbin football team defeated Coleman to the tune of 6-1 here on Saturday.

Mrs. T. Dawson is a visitor with friends here.

Mr. and Mrs. A. Crichton and family, of Calgary, were recent visitors here with Mr. and Mrs. R. Crichton.

Rev. Mr. Wood of Bellevue conducted the Sunday church service here on Sunday evening.

Mr. and Mrs. John Ironmonger returned from their honeymoon trip on Saturday.

Mrs. B. Stobbs and son Douglas left for Vancouver on Friday, where they will be holiday guests of Mr. and Mrs. J. Stobbs.

R. Porter is visiting at the home of Mr. and Mrs. J. Atkinson.

Charlie Lawrence is a Calgary visitor.

The Bellevue footballers were defeated by Hillcrest, Sunday evening, by a 7-6 score.

A very pleasant whist party was held at the home of Mrs. T. O. Davies on Tuesday evening, the 16th of August. First prize was won by Mrs. D. Grant, second by Mrs. Davis, consolation by Mrs. Wm. Fisher.

Mr. and Mrs. J. C. Atkinson returned from a two weeks visit to Athabasca and Edmonton.

### BELLEVUE HAPPENINGS

Mr. and Mrs. J. Boyle are holidaying at Waterton Park.

Mrs. F. Padgett and family, and Mrs. Dowson and family, are back after an enjoyable camping trip to Lee Lake.

Among the Bellevueites who visited Waterton on Sunday were: Mr. and Mrs. W. Berry and family, Mr. and Mrs. J. Radford and family, Mrs. R. Shevels and Doreen, Mr. and Mrs. Prescott, Miss May Dudley, Mr. and Mrs. Cranston and family, Albert Christie, Mr. Scott, Mr. Ray, Miss G. Knowles, Miss Mable Amos, Mrs. J. Ward and son Gary and Mr. and Mrs. K. Ellis and family.

Mrs. Klara Fisher entertained a number of friends at bridge on Wednesday evening.

Miss Dorothy Barless entertained a number of her young friends on Friday evening for bridge. Among the guests were Misses Ruby Cousins, Anne Makin, Jessie Radford, Marie Lamey, Messrs. Art Nicol, Norman Stewart and Albert Christie.

Misses Mabel and Marjorie Rhodes

returned home on Sunday, after spending a few weeks in Calgary.

Mrs. Cousins, G. Cousins and Miss Mary McLean left during the week for their home at Merritt, B.C.

Stokluk called off the picket on the fire boxes on Monday morning, and to pacify the feelings of the picketers, had a mass meeting in the field. Jack Price called the meeting to order, and ordered all moderators, or their relations or friends off the field. Stokluk then took the soap box and said the picket had been called off on account of a conference at 10 o'clock, and if the mine management didn't give in they would ask the government to settle the dispute.

Mr. and Mrs. Eggleston, of Ottawa, have been visiting at the home of Mrs. J. Rakovich.

Mr. and Mrs. "Doc" McLeod and family, R. T. Johnson, Mr. and Mrs. C. Johnson, Miss Ivy Johnson and Les Cousins spent Sunday at Waterton.

Misses Grace and Annie Penman returned home Sunday from Victoria. Mrs. Penman and Isa have also returned from a vacation spent at Sylvan Lake.

Miss Alva Thomas, of Taber, is spending a few days with Mrs. R. Shevels.

### COWLEY HAPPENINGS

Mr. and Mrs. Lionel Peel of Corbin, and children, Robert, Iris and Brian, returned home on Sunday by motor, after paying a visit to Mr. and Mrs. Peel's parents, Mr. and Mrs. A. A. Murphy and family.

Gillis Murphy, of Vancouver, stopped off here to pay a visit to Mr. and Mrs. M. A. Murphy and family, while on a motor trip through the Crow's Nest Pass to visit his father and family, who reside in Calgary.

The contract for the new school has been let to Mr. Fraser, of Pincher Creek, for \$3189. Work on the new building commenced on Monday.

Peter Kerr, of Vancouver, is paying a visit to his brother Andrew and family.

Jack Cowin was one of the runners in the provincial junior race and track meet at Blairmore last week.

Mr. and Mrs. C. J. Bundy are on a vacation by motor to Nelson and other B.C. points. Mr. McIntyre is acting as relieving agent during Mr. Bundy's absence.

Wedding bells rang once again in Cowley, early on Wednesday morning, as birth was given to a new day at the rising of a glorious sun, whose glad rays cast rippling shadows on the altar of St. Joseph's Catholic church, as the clock chimed out the hour of six, when Martha Inez Tustian, eldest daughter of Mr. and Mrs. F. A. Tustian, became the wife of Mr. Daniel Martin McIsaac, son of Mr. and Mrs. A. D. McIsaac, of Port Hood, Nova Scotia. The bride looked charming in a flowered brown silk ensemble, trimmed in egg-shell, with brown and egg-shell accessories and wearing a bouquet of sweet peas. She was attended by her sister, Miss Ketha, who wore a green ensemble with white and green accessories. The groom was attended by Mr. Arthur Tustian, eldest brother of the bride. Mrs. Tustian, mother of the bride, wore a gown of black georgette and lace. Rev. Father O'Dea performed the wedding ceremony. The happy couple was showered with rice and confetti as they left the church for the home of the bride's parents, where a dainty wedding breakfast was partaken of with relatives and friends. The bride, who is a talented pianist, was born in Kagawong, Ontario, and came to Cowley with her parents and brothers when only a small child. She was educated at the Cowley school, and grew to womanhood here, where she met Mr. McIsaac, who was born in Port Hood. Mr. McIsaac, who has been in the service of the Royal Bank for twenty years, came west a few years ago, taking the position of manager of the Cowley branch. Mr. and Mrs. McIsaac, who have the good wishes of many friends, will reside at their home in Cowley in future.

### Local and General Items

The Blairmore school will re-open for the fall term on Monday, August the 29th.

J. R. Watt, of Claresholm, has been elected president of the provincial Conservative association.

Blairmore's 1932 tax rate for town and school purposes, inclusive of the supplementary revenue tax, will be 34 mills.

L. D. Huntley, of Macleod, is at Coleman, relieving Mr. Rippon, manager of the Canadian Bank of Commerce, who is on vacation.

Spurious twenty-five and fifty-cent pieces are believed to have been sent in circulation in the Crow's Nest Pass the early part of the week.

Give some people an inch and they'll take a yard. But give a bathing suit manufacturer an inch and he'll bring out a new model with material to spare.

Pictures and lecture, under the auspices of the Forestry Department, given at the Columbia hall on Monday night, proved intensely interesting to a large audience.

A dandelion nine feet tall is growing on the lawn of Augustus M. Upham at Weston, Mass. The stalk is about an inch in diameter at the base and has leaves fifteen inches long.

A local party on Saturday purchased two chickens (friers) from a foothill farmer. They were guaranteed to be young roosters. One contained twenty-two eggs, the other about thirty. Next!

Jack Brownlee, eldest son of Premier J. E. Brownlee and Mrs. Brownlee is a patient in the Pincher Creek hospital, suffering from a mishap while horseback riding at the ranch of Earl Cook, former M.L.A.

Read this for a good laugh: A farmer in the Saskatchewan grasshopper belt left a pair of horses in a shed about 10-15 minutes before the team had disappeared, and the grasshoppers were pitching the horsehoes for the harness.

Walking a block on Victoria Street on Tuesday, it just happened that every man we met was christened Samuel. To the fifth we remarked: "Are you a Sam?" to which he promptly replied: "Yes, and a him, too." Psalms and hymns, by the way.

"A New Way" harvester has been demonstrated on a farm near Winnipeg. Among the saving features claimed for the machine are, it eliminates twine stooking, picks up all heads at one stroke, and saves both time and labor. The machine stacks the grain, and in case of wet weather, these stacks can be speedily removed. It handles any kind of crop.

Charlie Cheesman, who piloted the Cardston boys at Blairmore, came home again from Blairmore singing praises of their sportsmanship. It rained "cats and dogs" over there all day, but they had a real track which didn't muss up at all, and how those fans did stick; with rain pouring down their necks they never budged a foot all day, but watched the whole programme through to a finish. Once before this summer Cardston went to Blairmore, that time to play ball, and the boys came home that time, too, loud in praises for Blairmore sports.

Cardston Correspondent.

Ethel Le Neve, the girl who loved Crippen, the murderer, and figured prominently in his trial in London in 1910, is in Perth, Western Australia, living in wretched circumstances, without friends or money. Since the trial and execution of Crippen, Ethel Le Neve has been in India and Australia. She is now about 41 years of age. No one knows her as Ethel Le Neve. No woman could have passed through such a tragedy as hers and retain her happiness. So far more than 20 years Ethel Le Neve has been a wanderer, seeking effacement of her memories. "I only hope," she says, "that there is someone kindly enough to regard me other than as the sinning woman I have been painted."

A fifty-foot berry cross was burned by the K.K.K. at Edmonton last week. Four smaller crosses were burned on each side of it.

U.S. wins another war! The battle ground this time was Washington, and the American troops of 1922, armed with machine guns, sabres and muskets put to rout an unarmed band, some of whom were veterans of 1918. It does not sound so glorious.—Ex.

Butter is cheaper than axle grease, according to a story coming from Cadillac, Saskatchewan, and farmers are using it to lubricate their buggies and wagons. Storekeepers offer six cents a pound for butter, and the oldest farmers are unable to remember a time when the price was so low.

The marriage of Mr. Reginald McDougall and Mrs. Ruth Pearson, of Vancouver, took place in Vancouver on Saturday last. The young couple are well known in Fernie, Mrs. Pearson being the daughter of Mr. and Mrs. W. R. Wilson and Mr. McDougall the nephew of Mr. A. B. Trita.

Fernie Free Press.

Mr. and Mrs. McVey and two daughters have been staying with Mr. and Mrs. G. Evans, at the local hotel, for a few days. Mrs. Evans is also a daughter. They have now returned home to Blairmore, after spending a nice time amongst the jackpines and flowers.—Saunders Note in Red Deer Advocate.

Shooting of prairie chicken will be permitted in Southern Alberta from October 1st to 15th. The season for ducks and geese will be same as last year, September 15 to November 1st. Grouse shooting will also be permitted, according to announcement. The bag limit for Hungarian partridge has been raised from 75 to 200 for the season.

The other day a man, hitherto without a spot on his character, inquired with well-feigned innocence: "How can five persons divide five eggs so that each will receive one and still one remain in the dish?" After the company went all but distracted in the mazes of this proposition, the fellow meekly said: "One takes the dish with the egg."

The man who first called women "the weaker sex" is forever branded as a liar. Figures compiled by the Federal Statistical Office, Berlin, Germany, and supplied by 935 illness insurance companies with 2,500,000 members, show that women are much "tougher" than men and don't fall ill so often. The figures further reveal that at all ages women are far less inclined to incur diseases than men.

Mr. and Mrs. M. P. Cotte and family left Pincher Creek on July 28th on a motor trip to Montreal. Mrs. Cotte and the children will sail for France, where for a time they will be guests of Mrs. Cotte's relatives in Paris. Mr. Cotte will return by motor to Pincher Creek to look after his interests and will later join his family in Paris. At present, Mr. and Mrs. Cotte plan to make their home in France.

A critical moment in a court case had arrived. Counsel for defence rose and pointed his finger at the man in the witness box. "Now, sir," he commenced, "the whole evidence hangs on the destroyed letter. Think before you answer. What did the postmark say?" The witness went through the actions of deep thought. "I remember," he said at last. "The post mark said 'Every home needs a telephone.'"

Mrs. Helen Tito, second daughter of Mrs. Smalek, of Coleman, died at Cranbrook last week, following a brief illness. She was survived by her husband and two small children, her mother and three sisters. The remains were laid to rest at Cranbrook. Mrs. Smalek and family desire, through The Enterprise, to thank their many friends for floral offerings and various expressions of sympathy. Miss Smalek, of the Greenhill hotel staff here, and Miss Katie Smalek, of Coleman, are sisters of the deceased.

Surveys of the townsite of Noddsboro, on the Canadian National Railway, in extreme southeastern Manitoba, are now under way. The party has completed surveys of a summer resort subdivision that will be opened by the province, on the shores of Moose Lake, northeast of Sprague.

The area of wild life preserves set aside for the benefit of natives in the far north of Canada has been increased by 439,105 square miles by taking in all the islands under Canadian jurisdiction north of the Mackenzie and Keewatin districts, with the exception of a part of Baffin Island.

A man whom the famous Dr. Johnson once reproved for following a useless and demoralizing business, said, in excuse: "You know, doctor, that I must live."—The brave "chatter" of everything mean and hateful only replied that "He did not see the least necessity of that."

One more peak in the Canadian Rockies succumbed before the onslaught of alpinists a few days ago when Dr. Max M. Strumia, pathological research with the University of Pennsylvania, and William R. Hainsworth, New York, made a first ascent of Mount Oublette, 10,000 feet, in the Rampart group in Jasper National Park. The ascent took 22 hours. Due to the presence of snow couloirs, the descent was hazardous and included a 100-foot rope-off of great difficulty.

A thousand dollars worth of wheat would cost a man quite a bill of expense for storage, insurance, etc., but if the same man had a thousand dollars worth of gold he could get paid for the privilege of storing his gold in the course of a few years could realize double the original value of the gold. In about the same number of years the wheat would consume its own value in storage charges. Yet gold is only good to mankind for what it represents, "white wheat" is a direct physical benefit through its value as a food.—Clarkeholm Local Press.

Other countries than Great Britain are beginning to bring in grain from Canada by the new northern shipping route. A steamer has been chartered to take wheat from Churchill direct to Italy. This is the first vessel since the route was opened a year ago to be chartered for shipment of grain direct to a country on the European continent, and will be the third ship to reach Churchill for grain-loading purposes this year. The British steamers Pennyworth and Sierent are now at Churchill. Between these vessels and that chartered for Italy, approximately three-quarters of a million bushels of wheat will be loaded.

The prairie provinces have 1,042,278 more acres under wheat this year than last, according to a recently issued report by the Dominion Bureau of Statistics. For all Canada, the increase is 894,350 acres. The report says: "The estimates of the areas sown to the principal grain crops in the three prairie provinces as shown by the annual statistics, collected in June last through the rural schools are now available. The figures reveal an increase of 1,042,278 acres (4 per cent) in wheat and 221,033 acres (2.7 per cent) in oats, with slight decreases in barley and rye, and a rather drastic reduction of 28 per cent in flaxseed acreage from 618,561 to 445,700 acres. The acreages are as follows, with the preliminary census figures for 1931 within brackets: Three prairie provinces—wheat, 26,295,000 (25,352,722); oats, 8,533,000 (8,311,967); barley, 3,154,100 (3,202,727); rye, 706,200 (711,709); flaxseed, 455,700 (618,561).

Teacher: "Willie, what is an adult?" Willie: "An adult is one that has stopped growing, except in the middle."

A mother was discussing with her daughter the qualities of men. "Oh," said the daughter, impatiently, "but they have no self control."

"All the better," replied the mother, "if they had, there would be a great many more spinsters."

## Fragrance Sealed in Metal

"Fresh from the Gardens"

## Mutual Trust Must Be Re-established

One of the most interesting and thought provoking articles it has been our privilege to read for some time, and in these days of depression and pessimism it is as refreshing as a heavy shower on parched land, appeared in a recent issue of Toronto Saturday Night from the pen of Nicholas Ignatieff, a gifted young Russian engineer and thinker now resident in Canada. Mr. Ignatieff knows his native land and has written thoughtfully and sympathetically of it, but in the article to which we now refer he writes of "the British Empire as a new Canadian sees it."

As he sees it the British Empire is not menaced so much by external enemies, by Bolshevism or Communism, as by crass materialism within the Empire itself who insist on dealing exclusively with material, economic values—those individuals who have abandoned the best traditions of the Anglo-Saxon race and have plunged into the abyss of crass-money-worshiping, greedy, corrupt politics which care nothing for duty and public service. The real enemies of the Empire are those who have cut themselves away from the vital sap of the historical, spiritual life of the mother country.

Mr. Ignatieff declares that it is not only his conviction, but the conviction of one of the foremost economists of the British Empire, Sir George Paish, that the way to general recovery does not lie so much in the field of economics as it does in the moral, spiritual sphere, which affects primarily our politics, and reflects adversely on economics. Sir George Paish points out that as long as politics are dominated by fear, suspicion, distrust and narrow self-sufficient nationalism, no economic remedy can solve the depression; and just as soon as our mental attitude is changed and gives place to a desire to co-operate, compromise and trust one another, the economic situation will solve itself. In his book, "The Way to Recovery," Sir George declares: "By replacing fear with confidence, suspicion with justice, and antagonism with co-operation, a new and infinitely greater era would be introduced."

Continuing, Mr. Ignatieff says that when it is pointed out that one of the root causes of depression is the collapse of our present credit system, it is never realized by the crude materialist that here we are dealing practically exclusively with moral values. In the first place, credit being based on the future, it is obviously non-material; it is primarily based on trust. The general break-down of credit implies nothing more than the collapse of morals, the break-down of mutual trust. Internationally, countries are no longer trustworthy because they do not honour obligations, because they are suspicious and farsighted, selfish and greedy. Within nations, the same applies among individuals—there is general misuse of credit—credit is employed largely for anti-social purposes by greedy, unscrupulous, immoral individuals. The solution of the paradox of scarcity in the midst of plenty is spiritual, not material. A little thought will convince one of the truth of these observations, yet they are dubbed "platitudes" by so many worldly wise people.

Until fear is dispelled, suspicion allayed, confidence restored, there can be no real and lasting economic recovery, because, until these better conditions prevail, credit cannot be re-established. Credit is founded upon these things; trust is the one permanent foundation upon which a credit structure can be erected, and until credit is restored the world will remain economically sick. So long as fear and suspicion rule men and nations, so long as narrow nationalism, because of such fear and suspicion renders the guiding policy of the nations, so long will trade obstructions be maintained so long will there be an absence of credit. And just so long will the peoples of the world suffer economic hardship and loss. Therefore, it can be repeated, what the world stands in need of today is a spiritual readjustment rather than economic reorganization. Given the first, the second will automatically and quickly follow. But without the one the other is impossible.

## Lack Real Leadership

## U.S. Public Opinion Not Yet Ready For Debt Readjustment

The New York Evening Post, agreeing that virtual cancellation of war debts must come, says that general United States "public opinion is not quite ready for the debt readjustment which her eastern seaboard now recognizes as inevitable. Public opinion is not quite ready" because the United States public men and the press have persisted, chiefly for political purposes, in pretending, though they must have known better, that the debts were collectible. When they begin to deal with the question realistically, as is now the case, public opinion in the United States will accept the cancellation as not only inevitable but desirable. The people are all right if they are given competent leadership. But what leadership they have had, in all the allied countries, since the war—Winnipeg Free Press.

## An Absurd Practice

One well known radio station has decided that in future the names of radio announcers will not be given, and it is said that others are likely to follow suit. The plan has always been about as sensible as it would be for a brakeman to give his Christian and surname after calling out the next station.

"Well, I've brought back the car you sold me."

"How come?"

"When I bought it I thought '1932' was the license number, but now I realize it's the year of manufacture."

Don't leave kind words unsaid. Tomorrow may be too late.

## Pains in Stomach and Bowels So Bad Would Have To Sit Down

Mrs. C. Landry, Montreal, N.B., writes:—"I can certainly recommend Dr. Fowler's Extract of Wild Strawberry for cramps or pains in the stomach and bowels."

"Last Summer I had such awful pains in my stomach, and lower part of my bowels, at times, I would have to sit down. I took 'Dr. Fowler's' and was soon relieved."

"When my children were small I always kept a bottle in the house and it helped them wonderfully whenever they had bowel complaints."

## Poor Crop Prospects in Russia

Believe Country Will Need All Its Grain For Food

Poor crop prospects in Russia are indicated in the report by districts which the Dominion Bureau of Statistics received by cable from its London correspondent. "Grain exports," the summary declares, "are dependent upon the policy of the Soviet Government and the urgency of the need of foreign currency. The country needs all its grains for food, especially in view of the continued acute shortage of other foodstuffs."

Since it was the flood of Russian wheat on the market last autumn that broke the prices, the Russian crop prospects are of particular interest to Canada. Last year Russia exported, to July 31, 71,000,000 bushels, but the present report indicates that it will reach nothing like those proportions this year.

The summary states: "Vegetables are lacking for the winter months and at present vegetables constitute a large part of the diet, as grain reserves, excepting army supplies from 1930 crop, are consumed. The foregoing and other factors, including a tremendous discrepancy between open market and collective prices, the freeder permits to sell on open market after December, and an acute shortage of manufactured goods to trade for grain, indicate unprecedented difficulties in collecting the government's share of the harvest. Much poorer crops than last year are indicated in the areas around export outlets."

## Pension Act Investigation

Criticism Is Offered In Connection With Operation Of Plan

Dissatisfaction with the personnel of the committee which will investigate the operation of the Pension Act, and disappointment that the organization which has been set up to represent the non-affiliated veterans, the representatives of the blinded soldiers and sailors and of the amputees, is Mr. Young, chairman of the "privileged legionnaires." Their disabilities were obvious and consequently no dispute arose as to the manner in which pension payments were distributed to them.

Old conditions, however, developed in connection with those ex-service men whose disabilities were not obvious, he declared, and these were not all represented by the veterans' associations which have secured membership on the committee.

"Most of those named in the committee personnel," said Mr. Young, "are connected with veterans drawing the average of 100 per cent pension, and are men with obvious disabilities receiving the maximum."

He charged that the public sympathy which such cases excite was the cause of their appointment. Mr. Young claims to represent over 1,000 ex-service men, from coast to coast.

## In Times Of Peace

Germans Learning Protection Methods Against Gas Attack From Air

Classes have been established in Berlin to train women in the steps they must take for the protection of their household in the event of a gas attack from the air. Lectures are given on such subjects as how to make gas masks, how to use gas masks, the "Women's Air Defence League" are being established in several centres throughout the country.

No More Asthma. Dr. J. D. Kollogg's Asthma Remedy sounds the death knell of this trying trouble. It stops the awful choking and painful breathing. It guards against night attacks and gives renewed ability to sleep and rest the whole night long. Much is claimed for this remedy, but nothing but what can be demonstrated by a trial. If you suffer from asthma, try it and convince yourself of its great value.

## Larned A Lesson

A U.S. tourist made loud complaint in Aylmer, Ontario, recently. It seems he had replenished his gas supply at a station in another town, tending a \$10 U.S. bill in payment, and received his change in good Canadian money. On arrival at Aylmer he discovered to his chagrin that the Canadian money bank had changed the Canadian money back into U.S. funds, and was most indignant when the bank demanded a discount. He learned a lesson in exchange which has been taught many a Canadian visitor to the U.S.

## Cheques Made Of Steel

Steel-jacketed bullets were necessary to cancel three cheques for amounts totalling \$150,000 which were received by the Cleveland Trust Company. Given as prizes for the best discussions on the uses of arc welding, the cheques were made of one-eighth inch steel and all writing was done by arc welding.

## FAT GIRLS OUT OF FASHION

Women of All Nations Slimming

All over the world Kruschen Salts is appealing to girls and women who are striving for an attractive, trim, from-fat figure.

Here is the method they are following to banish fat and bring into bloom all the natural attractiveness that they possess: every morning they take a half-teaspoonful of Kruschen Salts in a glass of warm water before breakfast.

They do this every morning—without missing one—for "it's the daily dose that takes off." When Kruschen is taken daily, every particle of poisonous waste matter and harmful acids and gases are expelled from the system.

At the same time the stomach, liver, kidneys, and bowels are toned up and the fresh blood containing Nature's six life-giving salts is carried to every organ, gland, nerve, and fibre of the body, and this is followed by "that Kruschen feeling" of energetic health and activity that is rare in the case of a slim, cheerful vivacity, and a charming figure.

## Improving On Nature

Soil Heated By Electricity Can Be Kept At Even Temperature

Soil heated by electric current has come to be recognised as an aid to the grower to get their produce to market earlier and secure better prices. Equipment for heating beds, including cable and thermostats, was sold to farmers in the United States last year for the first time and several plants were set up in Canada.

The bulk of the power is used between sundown and sunrise, making it practically an off-peak load. The advantage of electric heating over steam or manure is seen in the more exact control of temperature, such as Easter lilies can be speeded up and a greater percentage of growth is noted in cuttings of plants. Celery appears to respond particularly well to the electrical current.

## Serum For Addison's Disease Is Expensive

Fifteen Oxen Are Required To Supply One Dose

Fifteen oxen are required for a new discovered treatment for Addison's disease.

Successful results of the treatment have been obtained at a London hospital. "Fortunately, the disease which attacks the pituitary gland and stops growth is rare, for the expense of extracting one dose of serum from fifteen oxen is enormous."

The life of one patient was saved by this new treatment, said \$25 was spent on him to do it, and the treatment continued to cost \$5 a day. Persian Balm is unrivalled for promoting healthy liveliness. Tones and rejuvenates the skin. Makes it exquisitely soft-textured. Makes hands dainty and supple. Especially recommended to scotch and relieve roughness or chafing caused by weather conditions. Refreshing to every dainty woman. Cool and refreshing. Delicately fragrant. Magical in results. Never leaves a vestige of stickiness. Persian Balm is the one toilet requisite for the woman who cares for charm and elegance.

## Many Placed In Employment

Saskatchewan Government Finds Jobs For 2,511 Persons In Five Weeks

Jobs for 2,511 persons were found by government employment offices in Saskatchewan during the five weeks ending July 30, official figures indicate. The number of persons applying for work at the nine employment offices in the province during the period were 2,926, and the number of employers' orders received were 2,637.

In addition to these figures there were 187 applications received from school teachers and 62 of these were located with positions.

## Not So Weak

Sir William Arbuthnot Lane says that women will always live longer than men because "nature has provided them with an enormous reserve of energy and vitality" and also for the reason that their lighter clothing enables both "sunshine and air to get to their skins." This "weaker sex" talk is manifestly an entire misapprehension.

## PERSONAL

SCOTCH LADY AT PRESENT IN Canada, would like to take in charge one or more young ladies. Has experience in travel abroad, and as Canadian girls. Could act as companion to ladies, in any of the world, as travel companion. Has excellent testimonials both in Canada and in Britain. Would willingly give more information to interested party.—Apply Box 50, Winnipeg Newspaper Building, 170 McDermott Ave., East, Winnipeg, Man.

## Northern Air Mail Service

Extends From Great Bear Lake To Lonely Arctic Points

Extension of mail service by means of private flying facilities to meet needs of those in the Coronation Gulf and other parts of the Arctic, was announced by Major R. W. Hale, superintendent of the Edmonton postal district.

Instead of those living along the Arctic coast having to wait for indefinite periods, even two years at times, before receiving mail by boat from Great Bear Lake, they will now receive mail at much shorter intervals.

Arrangements have been made for the mail to be sent to Coronation Gulf, Victoria Island, and other non-post office points by a route that extends from Great Bear Lake, instead of the round-about way through Akivik.

When aeroplanes leave Great Bear Lake for the 150-mile flight to Coppermine post on the Arctic Coast or other distant points in that region, they will carry mail that has been routed to the mining region for northern delivery.

The points which will be served in this way include the following: Bay 66, Cameron Bay, Lindley Bay, Glacier Bay, Echo Bay, Labina Point, Contact Lake, Hunter Bay, Domey Lake, Coppermine, Fort Hearna, Dismal Lake, Bormite Lake, Cambridge Bay, Akhurst, Red Lake, King William Land, Bernard Harbor, Wilmet Island, Walker Bay, Peterson Bay and Tree River.

In all likelihood, it will not be long before a post office is established at the mouth of the Coppermine River.

## Recipes For This Week

(By Betty Barclay)

## RIPE PLUM JAM—RIPE PRUNE JAM

4 cups (2 lbs.) crushed fruit.  
1 cup water.  
7½ cups (¾ lb.) sugar.

½ bottle fruit pectin.

To prepare fruit, pit about 2½ pounds fully ripe fruit. Do not peel. Cut into small pieces and crush thoroughly.

Measure fruit solidly packed, and water into a large kettle. (For Ripe Plum Jam, add juice of 1 lemon.) Stir until mixture boils, cover, and simmer 15 minutes. Add sugar, mix well, and bring to a full rolling boil over hottest fire. Stir constantly before and while boiling. Boil hard 1 minute. Remove from fire and stir in pectin. Skim, pour quickly. Paraffin hot jam at once. Makes about 11 glasses (8 fluid ounces each).

## APPLE-MOCK MACAROON PUDDING

3 cups apple sauce, fresh or canned.

1 cup rice flakes, crushed.  
2 cups milk, finely chopped.  
2 tablespoons butter, melted.  
½ teaspoon almond extract.

Put half the apple sauce in a buttered baking dish. Combine rice flakes crumbs, nuts, butter and almond extract and cover apple sauce with half the prepared crumb mixture. Repeat layers. Bake 30 minutes in a moderately hot oven (375 degrees Fahrenheit). Serve hot or cold with cream or soft custard. Serves 6.

## Infantile Paralysis

Belief Expressed That House Flies Carry Germs

Possibility that there is some significance in the fact that cases of infantile paralysis occur most frequently during the "house fly season" is suggested by Dr. W. J. Bell, Deputy Minister of Health for Ontario. "It is pure theory," Dr. Bell said. "There is no scientific explanation for the fact that infantile paralysis occurs generally during the summer months, but the coincidence that germ-bearing house flies are most prevalent at that time may be significant."

Keep Douglas's Egyptian Liniment about the stable, ready for immediate use. Removes proud flesh and inflammation. Thrush or Hoof Rot, and infection of cow's teat.

## Walks Across Canada

Setting out from New Westminster, B.C., on April 14, Frank Potter, a former Nova Scotian who has lived the last 20 years in the west, arrived at Halifax recently en route to his old home in the Annapolis Valley. He has last visited his home in 1919. Mr. Potter walked most of the distance from the Pacific Coast, but received a motor lift at intervals.

The oldest cemetery in Canada is thought to be the one adjoining old Fort Anne, Annapolis Royal, Nova Scotia.

In Ancient Babylonia, medicines were frequently mixed in beer.

## Stops Summer Odors

The heavy smell which warm weather brings to many people is largely prevented by regular bathing with a free lather of Baby's Own Soap. The delicate aroma dispels all unpleasantness and the skin feels refreshed, cool and sweet. Baby's Owns sells at 10c a cake at dealers everywhere.

"Best for you and Baby too."

## A Warmer Climate

Scientists Predict Radical Weather Changes In The Future

Some times you hear people who lament the present condition of mundane affairs express the hope that they might be living on a planet a few thousands years hence. They are sure there will then be more culture, more altruism, more highly improved mechanics and a happier state of things all around.

But, according to the recent pronouncements of scientists, there will be great drawbacks to the enjoyment of an Edenic existence in those future days, and one of them will be a decrease in the amount of sunshine.

Dr. W. M. F. Gray, a physicist, professor of meteorology of the United States weather bureau, says that with the vanishing of the last 6,000,000 square miles of ice sheets at and near the poles and in the high mountains the oceans will be raised 151 feet.

In this dismaying prediction Dr. Humphreys is supported by Professor David, of Australia; Professor Melandus, of Germany, and others, who also accept the theory of the American scientist that it's going to be pretty warm in the present temperate zones, for as the ice melts the tropics will press upon them and they in turn will press upon the polar regions, — Los Angeles Times.

Miller's Worm Powders were devised to promptly relieve children who suffer from the ravages of worms. It is a simple preparation to destroy stomachic and intestinal worms without shock or injury to the most sensitive system. They act thoroughly and painlessly, and though in some cases they may cause vomiting, that is an indication of their powerful action and not of any nauseating property.

## Business Is Growing

Increase In Air Passengers Between Germany and Russia

Air service between Germany and Russia continues to grow. Lufthansa is a simple proposition to destroy stomachic and intestinal worms without shock or injury to the most sensitive system. They act thoroughly and painlessly, and though in some cases they may cause vomiting, that is an indication of their powerful action and not of any nauseating property.

Rob It In For Lame Back.—A brisk rubbing with Dr. Thomas' Electric Oil will relieve lame back. The skin will immediately absorb the oil and it will penetrate the tissues and bring speedy relief. Try it and be convinced. As the liniment sinks in the pain comes out and there are ample grounds for saying that it is an excellent article.

## Origin Of Word "Candy"

Soldiers with Alexander the Great were the boys who put the word "candy" into general circulation. Dr. C. A. Brown, chief of the United States Bureau of Chemistry and Soils, says the soldiers were in India when they ran across a sweet cake the Indians called "band." They took the word back to Macedonia and since that time, it has been slowly modified until today we have "candy."

Tramp To Aberdeen on Four-toothed Rail.—Can ye gie me tuppence for a bed?"

"Bring it up till I see what it is like!"

W. M. U. 1935

## MONARCHIST REVOLT IN SPAIN IS SHORT-LIVED

Madrid, Spain.—Rioting mobs in Seville took their vengeance on monarchist sympathizers for the short-lived revolt against the Republic, which collapsed when its leader, General Jose Sanjurjo, fled the city and was captured while trying to get to the border.

While the rioters were burning buildings and bombing homes in Seville, the government proceeded with "mopping up" operations against the revolutionaries and the rest of Spain have itself over to public celebration in honor of the young republic's hardihood in its first great test.

General San Jurjo, who complained that "everybody abandoned me and my undertaking," was on his way to Madrid from Huelva, where he was arrested after he had asked a rural guard to show him the best way to Portugal.

President Niceto Alcalá Zamora presided over a lengthy cabinet session at which the punishment for the rebel general was discussed.

Nine buildings were burned by the Seville mobs. Among them were the offices of two newspapers—the A.B.C. and La Unión—and the church of San Isidoro.

The rioters killed a civil guard near the Seville jail, which they attacked in an effort to liberate prisoners and to assault members of the civil guard held captive there because of participation in the revolt.

Shortly afterward, Premier Manuel Azana announced the general and all other officers and civilians connected with the revolution would be tried by the sixth section of the supreme court. This tribunal is devoted to military affairs.

The premier said he intended exterminating to the very roots the cause of the rebellion. "It would be unjust to those persons awaiting sentences on charges of sedition if the government allowed such crimes to continue," he said.

General San Jurjo, who complained that "everybody abandoned me in my undertaking" after his revolt collapsed, was questioned lengthily at police headquarters here.

## Wheat Carry-Over

Slight Decrease Is Shown Compared With Previous Year

Ottawa, Ont.—The carry-over of wheat at the end of the crop year, July 31, was 139,948,901 bushels, compared with 134,078,963 last year, the Dominion Bureau of Statistics reported recently.

Canadian wheat in elevators and afloat in the United States amounted to 4,706,828 bushels, while 1,181,427 bushels of Canadian wheat were afloat destined for United States ports. The comparable figures for these items at July 31, 1931, were 5,536,334 and 1,259,978 bushels, respectively.

The total amount of Canadian wheat in Canada and the United States at July 31, 1932, was 136,837,156 bushels compared with 140,877,275 bushels at July 31, 1931.

The final revision of the 1931 wheat crop estimates is not possible until January, 1933, when the final figures for deliveries and platform loadings are made available by the Board of Grain Commissioners.

## Floods Take Heavy Toll

Hundred Thousand Chinese Homeless and Many Lives Lost

Harbin, Manchuria.—A hundred thousand Chinese residents of Harbin were forced by unprecedented floods to abandon their section of the city, which has become a vast inland sea.

Approximately 3,000 persons were reported missing in the valley of the Shanghai River, which has risen far above the level in 1914, when Manchuria experienced the worst flood in its history.

Harbin's Chinese residents have congregated in cemeteries and fields on the outskirts of the city. Many of them are without food, clothing and shelter.

Cholera is spreading in the district and the people are hoarding food as prices sky-rocket.

## May Finance Settlers

St. Catharines, Ont.—Possibility of 10 unemployed families of this city becoming pioneers of the Peace River district was seen if plans of the city council are completed. Under the proposal 10 families, financed with a maximum sum of \$400 each, provided by the municipal, provincial and Dominion Governments, would be established in Peace River.

W. N. T. 1933

## No Dairy Shipments

Lack Of Refrigeration Service May Prevent Exports Over Churchill Route This Year

Montreal, Que.—Owing to the high rates that would have to be charged, little hope is held out that a refrigeration service will be available out of the port of Churchill, Man., to carry butter and cheese to Great Britain, at least this year, Thomas Harding and Co., steamship agents here, stated recently.

Efforts had been made by western Canadian interests to obtain steamship service from the new northern port for dairy produce, the company stated, but it was felt the rates would be too high to attract shippers. Vessels at present using the Hudson Bay route to carry grain do not have the refrigeration facilities necessary.

Western Canada last year shipped a considerable quantity of butter to the United Kingdom when exports of that commodity were resumed after a lapse of several years. Certain quantities of eggs and poultry also also shipped overseas by the west, the shipments being made via Montreal.

Winnipeg, Man.—Officials of the On-to-the-Bay Association had little comment to make on a Montreal despatch, saying it would be practically impossible to ship dairy products from Churchill this year owing to prohibitive rates. They regarded the statement as indicative of the difficulties encountered in developing the route.

Available in the west for export to ensure profitable operation of a refrigerated ship on a reasonable freight rate basis, it was stated.

## Double Taxation

Steps Being Taken To Remedy Grievous Situation

Edmonton, Alberta.—Recommendations from the conference of income tax officials of the four western provinces, which was held here, will go in course to their respective governments, certain general principles and working methods having been agreed upon for joint adoption if approved. It is expected that the changes will be made to apply to next year's tax.

Provincial income taxes as affecting wage-earners are the chief point on which some changes in the present system are desired. The superintendents of the four provinces are trying to find a way of avoiding the taxing of the same income twice. A number of cases were found in this year's operations—persons living in one province and working in another, and under the income tax laws as they stand at present the incomes of such persons are liable for being taxed twice. This overlapping and double taxing will be remedied, it is understood, if the suggestions of the superintendents' meeting are adopted.

## Research Laboratories

Two Thousand Guests Attend Official Opening At Ottawa

Ottawa.—The handsome bronze doors of Canada's new national research laboratories swung open to 2,000 guests from the British Empire. Between the doric columns of the main facade light shone from half-a-hundred windows.

His Excellency the Governor-General faced one of the most distinguished audiences in Canada as he pronounced the words declaring the building formally opened. The guests, after a short address from Hon. H. H. Stevens, Minister of Trade and Commerce for Canada, presided. Speaking briefly, he called upon the Prime Minister, Rt. Hon. R. B. Bennett, to address the assembly. After a short address from Mr. Bennett, his excellency, upon whom fell the duty of declaring the building open, spoke.

## Quest For Blondes

Scientists Require Golden Hairs For Recording Humidity

Montreal, Que.—The McGill University weather bureau is quest for blondes whose tresses reach their waists brought quick response Wednesday. Telephone calls assured him there are still women in Montreal who have not unboxed and who are willing to sacrifice a few hairs of it on the altar of science.

The McGill meteorologist requires the fine, sensitive, golden hairs for a hygrometer, a delicate instrument used for recording humidity changes from hour to hour. The hair of brunettes is too coarse.

## Should Attend Unveiling

St. Thomas, Ont.—Representation of the Dominion of Canada by a company of soldiers of great war veterans at the unveiling of the Canadian memorial at Vimy Ridge, which may take place next year, was recommended by Col. Hercules Barre, Canadian trade commissioner to France.

## Kaye Don Will Race Again

Britain's Speedboat Racer Has Hope Of Capturing Trophy

London, Eng.—Kaye Don, Britain's speedboat racing idol and holder of a new world's record upon the water, left here for Southampton to sail on the steamer "Majesty" for Detroit, where he will race against Gar Wood for the Harmsworth trophy.

A large crowd of cheering admirers bade him farewell. "I am making no promises," he said, "except this—I will do the best I can against Wood's boat, which has a much greater horse-power than my Miss England III."

By promising to do the best he can, Don meant he would try to reach again on the new Detroit course the two-miles-a-minute pace he set when he slashed his sleeked power plane across Loch Lomond at an average speed of 119.81 miles an hour, with a top mark of 120.3 miles, the fastest any human has travelled over the water.

## CANADA'S SHARE OF BRITAIN'S WHEAT IMPORTS

Ottawa, Ont.—During the calendar year 1931 Russia supplied the United Kingdom with 24.24 per cent of its total wheat requirements while Canada's percentage was slightly higher at 25.12. These figures were contained in a special report on world trade in wheat, issued by the Dominion Bureau of Statistics, especially for the benefit of the Imperial Economic Conference. Russia's total exports of wheat to the United Kingdom in 1931 amounted to 54,010,298 as compared with total Empire imports to the United Kingdom of 94,948,376.

The total wheat requirements in 1931, of the United Kingdom, chief wheat importing country of the world, amounted to about 223,000,000 bushels. This was supplied mainly as follows: Canada, 55,982,000 bushels; Australia, 43,397,000; British India, 89,100; total British countries, 73,656; Russia, 54,010,298; Argentina, 38,701,714; United States, 15,706,000; Germany, 4,253,000; France, 35,000; and other foreign countries, 9,575,000.

Russia's upsetting invasion of the Empire wheat market came in the last two years, the total to the United Kingdom for 1930 having been only 34,939,000 bushels, while the five-year average ending with that year was 8,783,000 bushels. This compares with a five-year average over the same period of 76,194,000 for Canada. Estimated gross average yearly British exports of wheat for the five years ending with 1930 amounted to 330,166,000 bushels. Canada which leads all wheat exporting countries had an average total of 257,863,000 bushels.

Estimated average world exports during the same period totalled 692,649,000 bushels. Argentina led among the foreign countries contributing to this total with an average of 149,785,000 bushels, with United States, Hungary, Algeria, Germany, Rumania, France and Russia, following next in order. Russia's average was 31,968,300 bushels.

## Alberta Delegates

Edmonton, Alberta.—Hon. George Hoadley, Minister of Agriculture, and Dean Howes of the university, will be the Alberta delegates to the meeting called by Hon. Robert Weir, federal minister of agriculture, for August 29 in Toronto.

## ADDRESSES SEED GROWERS

Under the auspices of the Canadian Seed Growers' Association, Field Days are being held this month at various points throughout Saskatchewan.

Mr. H. S. Vigor, Secretary of the Saskatchewan Branch of the Association (shown above), will be one of the principal speakers.

## War Loan Conversion

Success According To Report

London, Eng.—The success of Great Britain's war loan conversion is strikingly illustrated in the official report of government revenue and expenditure for last week, from which it is inferred that nearly £1,600,000,000 out of the total of £2,084,904,000 was converted by July 31.

The report includes an item of expenditure, "cash bonuses, £15,703,000 sterling." When the government announced its conversion scheme on June 30, where five per cent securities could be exchanged for a 3½ per cent issue, bondholders were offered a cash bonus of £1 for each £100 if they gave notice of intention to convert before July 31.

While no official announcement of the progress of the scheme was issued, London financial houses were asked to observe the cash bonus item, multiplying it by 100 to find the figure converted in July.

## Wheat For Italy

Shipment Being Forwarded Direct Through Port Of Churchill

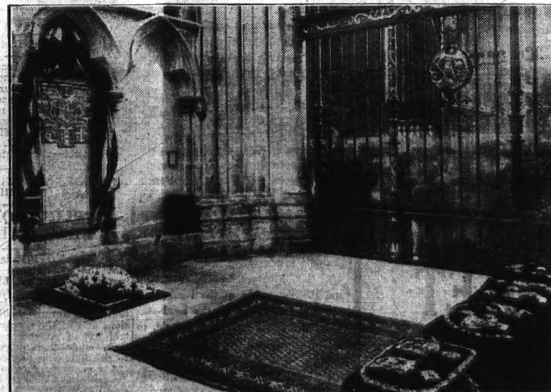

Winnipeg, Man.—A shipment of wheat will go to Italy this summer direct from the port of Churchill. Thomas Harding, Sr., head of Thomas Harding and Son, shipping agents, made the announcement here just before he left for the northern port to superintend the loading of the first two ships of the season, the "Pennyworth" and "Sierentz."

Mr. Harding said the chartering of a vessel for the shipment to Italy indicated the loading of the first two ships of the season, the "Pennyworth" and "Sierentz." The vessel would carry the first cargo to go direct from Churchill to the continent. The three vessels already chartered will carry about 150,000 bushels of wheat.

## Enlarging Elevator

Winnipeg, Man.—The United Grain Growers, Limited, have awarded a \$250,000 contract to the Northern Construction Company, of Vancouver, for the extension of their elevator there to a capacity of 2,000,000 bushels, the work to be completed by November 1, according to an announcement of R. S. Law, president of the firm here. The present capacity of the elevator is 1,600,000.

## WHERE A NOTED WARRIOR RESTS

The grave of Field-Marshal Lord Plumer in Westminster Abbey, showing four cushions on which are placed his insignia. Lord Plumer's remains lie close to those of the "Unknown Warrior." The tablet shown at the left background reads in part: "To the Glory of God and to the Memory of One Million Dead of the British Empire who fall in the Great War of 1914-1918."

## Increased Acreage

Prairie Provinces Have More Than Million More Acres Under Crop This Year Than Last

Ottawa, Ont.—The prairie provinces have 1,042,278 more acres under wheat this year than last, according to a crop report issued by the Dominion Bureau of Statistics Wednesday, August 10.

For all Canada, the increase to 884,250 acres. "The estimates of the areas sown to the principal grain crops in the three prairie provinces as shown by the annual statistics collected in June last through the rural schools are now available. The figures reveal an increase of 1,042,278 acres (four per cent) in wheat, and 221,033 acres (2.7 per cent) in oats, with slight decreases in barley and rye and a rather drastic reduction of 28 per cent in flaxseed acreage from 618,561 to 445,700 acres.

## Menace To Health

Dental Authority Says Sugar and White Flour Injurious To Teeth

Toronto, Ont.—The corner candy store is a greater menace to public health than the old corner saloon, according to Dr. Martin Dewey, New York, president of the American Dental Association.

Asked for an interview during the dental convention he is attending here, Dr. Dewey said, "Just say this—it has been said a million times that it will stand plenty of repetition—white flour and white sugar are the big enemies to the teeth of civilized peoples. Those are the culprits which are responsible for more ill-health as far as teeth are concerned than any two articles you could mention."

## PREFERENTIAL TARIFF ASSISTS EMPIRE TRADE

Ottawa, Ont.—Preferences granted by Canada to Empire countries amounted to \$30,000,000 during the year ended March 31, 1931, according to the preliminary trade report just issued. This was estimated as the difference between the duty collected under the preferential tariff and what would have been collected under a general tariff. The difference between the preference and treaty tariffs would have been six million dollars less.

Total Empire imports for the year under the preferential tariff amounted to \$141,588,188. The duty collected amounted to \$19,125,220, at an average ad valorem rate of 13.5 per cent. The estimated duty for this volume under treaty tariff would have been \$42,849,989, and under a general tariff \$49,202,030. Of the total imports goods valued at \$37,151,606 entered Canada free.

The great bulk of these imports came from the United Kingdom, the total being \$95,265,905, of which \$18,288,442 represented free imports.

Duty collected on United Kingdom imports amounted to \$15,437,744. Under a treaty tariff this would have been \$23,737,060, and under a general tariff, \$28,922,192.

The next largest importer to Canada, the British West Indies, sent goods valued at \$13,563,762, of which \$8,745,705 was dutiable, bringing a revenue of \$1,596,476. Under a treaty tariff this would have been \$7,072,931, and under a general tariff, \$7,147,446.

## PROPOSAL MADE TO ESTABLISH EMPIRE BANK

Ottawa, Ont.—Establishment of a super-central empire bank, represented in each participating country by a local office, was advocated by J. F. Darling, director of the Midland Bank of England, and well-known authority on silver.

The bank, Mr. Darling states, would commence operations with a fund of approximately 100,000,000 pounds allocated to each participating country as agreed upon. This fund would be increased annually by three per cent over the preceding year.

In a brief memorandum on imperial co-operative credit and silver, followed up by a newspaper interview, Mr. Darling went into his proposed plan. It was taken for granted, he said, that within the empire there existed a potential but unused credit which, through co-operation, might be utilized to great mutual advantage. To operate this credit most effectively, the super-bank should be set up.

## An Island Prison

Sons Of Freedom Are Being Established In New Quarters

Vancouver, B.C.—A little green island in the Gulf of Georgia became a prison for the Sons of Freedom, 20 Sons of Freedom who for the first time saw the place where they must spend the next three years.—They were sent over from Vancouver and will be followed by similar groups until the entire body of 600 noted paraders are settled in their place of confinement. In the meantime, some 300 of their children will be cared for in provincial institutions.

Instead of spending the winter on their well kept farms amid seasonable cold and snow in the southern interior, the Doukhobors will winter amid the soft rains of the mild coast climate. They will be housed in newly-built quarters surrounded by barbed wire ten feet high and may pursue their occupation of farming to some extent—the men on one side of the island, the women on the other.

## Jobless Veterans Offer Services To Bolivia

British Soldiers Would Join In Fight Against Paraguay

London, Eng.—Many unemployed war veterans called at the Bolivian legation to consult general Bore in response to an announcement of the British Fascist that a large number of British Fascists were anxious to join the Bolivian army in its dispute with Paraguay. They were courteously informed, however, that recruits were not needed at present.

The consul-general said it had received hundreds of letters from men desiring to offer their services, in addition to a "British Fascist" offer of 10,000 men if necessary.

## Optimistic At Eighty

Man From Ontario Quits Content Of Finding Work

Winnipeg, Man.—Flat broke and 80 years of age, an optimistic traveler arrived in Winnipeg from Bracebridge, Ont. He visited the city hall and said he had ridden bumpers here in search of work in the harvest fields. He was not exactly looking for a meat ticket at the city hall, he said. He just wanted to look in and talk to some of the folks.

A blacksmith by trade, he said he had never missed a meal in his life and did not expect to. He was sure he'd find something to do in the west after the harvest.

## Prospectors Going North

Rush Started With Report Of Manitoba Gold Strike

Norway House, Man.—Reports of a promising gold strike on the north-western extremity of Elk Island are keeping in this northern Manitoba outpost. A number of prospectors are joining in the rush from Island Lake and other mining men are making their way to the scene of the find by aeroplane.

The gold occurs in a telluride in a sheer zone about 16 feet wide and parallels the direction of the Island Elk Island is approximately 150 miles northeast of here.

## Radio Cars For Police

Vancouver, B.C.—For the past two months the Vancouver city police department has experimented with radio equipped automobiles and a short wave sending station located at police headquarters. Some 20 cars have already been put across the experiment has proven satisfactory.

Jas. Milne, Prop. — Phone 46 — Blaimore, Alberta

Tired of golf, a Britisher decided to take life easier by getting married.

What women really need are wrist watches that will run and -hosey that won't.

W. H. Langston has sold out to Safeways Limited at Claresholm. Safeways are re-opening the store this week end.

A newspaper heading says: "Dook-hobors Going to Pier's Island." And that's where our Canadians who protest most strongly against nude parades, will do their peering.

If the speaker who at the open air meeting on Saturday night made reference to the "Local Rag," would let us have his remarks as made in writing, properly signed, we would be glad to publish same in our joke column.

A Port Alberni, B.C., farmer declared that farming is a luxury for the wealthy only. A short time ago, he stated, he forwarded two bales of wool to the brokers to be washed, combed and sold. Instead of receiving a cheque, he received a bill for \$3.80.

Billy says a goldfish is a sardine that's got rich.

Fernie's annual fair will be held on Wednesday, Thursday and Friday next.

The name of the Catholic parish of Wainwright has been changed from "St. Luke's" to "The Blessed Sacrament Parish."

Ronald L. Rideout, a university graduate and former advertising man, pleaded guilty to having stolen over \$8000 from the Royal Bank of Canada at Winnipeg in June last.

Corporal A. Ford, R.C.M.P., at Waterton Park, has been announced pistol champion shot in the mail marksmanship contest conducted by Street & Smith's Western Story Magazine under supervision of the National Rifle Association.

Rev. and Mrs. W. T. Young, with their son and daughter, Anglin and Olive, returned to Calgary on Monday, following five days' visit to friends in The Pass. On Sunday night, Mr. Young conducted service at Frank, in the absence of Mr. Dutton.

## Local and General Items

Mrs. J. Angus McDonald was a visitor to Lethbridge last week end.

G. D. Brophy, district passenger agent of the C.P.R., was a Pass visitor yesterday.

Miss Mildred Passmore left Craibrook on Friday last to spend a week in Spokane.

Misses M. Chardon and S. McVey returned Saturday from a motor trip to Spokane, Portland and other U. S. points.

A. A. Sparks, former proprietor of the Cosmopolitan hotel here, now farming in the district west of Picher Creek, was a visitor to Blaimore last week.

Miss Gwen Dawson left at the end of the week for Tranquille sanatorium, where she will take a year-long, where she will take a post-graduate nursing course.—Kimblerley Courier.

H. P. Thorgren, former member of the Blaimore teaching staff, who for the past few years has been on the staff of the Cardston public school, has been engaged as principal of the Wainwright school.

Rt. Rev. P. G. Monahan, the new bishop of the Catholic diocese of Calgary, was consecrated in St. Mary's Cathedral at North Bay, Ontario, on Wednesday of last week. Bishop Monahan arrived in Calgary today, and is being installed this evening.

On Saturday, Hillcrest will be hosts to the touring Drumheller football team in a game against a picked team from all the clubs of the Crow's Nest Pass league. Drumheller is touring Canada and stopping off on their way to the coast to play this, their only match in The Pass.

Capt. W. A. Beebe left for Calgary on Sunday, where he is attending the "get together" of Yukon veterans. Veterans of the Yukon, some of whom trekked the wilds by land, and also by water, to share in the great gold rush of over thirty years ago, have gathered from practically all parts of the world for the great event.

Revolution: An evidence of revolution is given by the suicide of a red leader, Axelsson, of the Farmer's Unity League. Axelsson, three years ago contested the presidency of the U.F.A. against H. W. Wood, and was defeated. He also ran against Dr. Gershaw and G. M. Blackstock in the Dominion elections at Medicine Hat, defeated in both instances. He was not considered a capitalist, but financial worries were given as cause of his rash act.

When the news spread that 700 men were called back to Europe from Canada, it was hoped we had an opportunity of getting rid of some of our real undesirables; but later information disclosed the fact that it was Irishmen instead. Just why they have been called back is not known, but the opinion is expressed that it is on account of the trouble brewing in Ulster. We are wondering if Murphy will be considered a compatriot among the far-well gang.

The Blaimore Colliens, Floaters and Columbus Club made up a party of three softball teams that journeyed to Fernie yesterday, the Fernie teams being successful in winning all games, 7-0, 14-0 and 9-3, respectively. A dance followed the series of games. Next Wednesday a couple of Fernie's men's teams will cross bats with the Floaters, Columbus Club and Hillcrest teams at the local stadium, for which tags will be sold, to hall at night, and the following Wednesday, August 31st, the Fernie ladies' and men's teams will again visit Blaimore for a series of games, to be also followed by a dance at night in aid of the Blaimore Amateur Athletic Association.

Fernie will stage a big celebration on Labor Day, September the 5th.

WANTED TO RENT—Furnished or unfurnished house, with bath and toilet. Apply to Box 1996, Blaimore.

It costs the town of Macleod nearly eight hundred dollars a month for pumping the town's water supply. Leaky pipes permit vast wastage.

So live that after the minister has ended his remarks, those present will not think they have attended the wrong funeral.

Get your Counter Check Books from The Enterprise office. A stock of blank books on hand or printed to your requirements.

C. B. May, official assessor, is in Blaimore this week, attending the special sitting of the assessment commission. Mrs. May is accompanying him.

A. Vejprava motored to Sylvan Lake the early part of the week, returning on Tuesday with Mrs. Vejprava and Roy, who have been holidaying at that point for the past three weeks.

W. D. Spence, taxation commissioner, is in town, hearing appeals against assessments of Blaimore School District and the Town of Blaimore. Quite a number of appeals are being dealt with.

"Mandy, I'm sorry to tell you that the person who married you to Absalom Johnson was a fake and your marriage isn't legal." "Man, you is crazy! I gave birth to twins just this month. Fake? Wish to goodness twas."

—DR. A. E. SHORE, of Drs. Gunn, Hackney & Shore, Calgary, will be at the office of Dr. Stewart, Blaimore, on the afternoon of Monday, August 22nd. Anyone wishing to consult him with regard to Eye, Ear, Nose or Throat, please make appointments with Dr. Stewart.

In 1893, a fool set out to shoot Gladstone. He met Gladstone in Downing street. Gladstone smiled at him and he hadn't the heart to shoot. This fool died last month in a criminal asylum, and his death brings the story to mind. Gladstone saved his life by a smile, and there is many a business concern, now drifting down to bankruptcy, who could save their business by smiling, if they only knew it.
